Satisfaction Guaranteed

FORD SEED CO.
RAVENNA, OHIO.
I am indeed grateful to my many customers and friends who have, for a portion at least, of the past forty seven years used Fords Sound Seeds, Bulbs and Plants.

It has been and will be my aim in the future to please and satisfy every customer.

Colored pictures and elaborate catalogs are a big expense, which the customer has to pay.

We issue this plain little catalog and cut other overhead expenses to the minimum in order to give our customers the most good seeds bulbs and plants for the money paid us. I know my old customers appreciate this and trust all who have never given us an order will realize that we are able to make a substantial saving to our customers by this plan.

For 47 years we have been catering to the people who want to get the Best Quality of Seeds, bulbs and plants at reasonable prices.

Why pay more than we charge when you can get no better quality.

Sincerely yours,
J. H. FORD,
Pres. and Mgr. Ford Seed Co.

Revenna, Ohio, 1928.

DIRECTIONS FOR ORDERING, TERMS, ETC.

SIGN YOUR NAME. Your name, post office and state should be distinctly written every time you write to us.

Letters Requiring an Answer, and list of names, should be written on a separate sheet from the order.

Terms: Cash with order or one fourth the amount with the order and balance before shipment or C. O. D. Discount for cash 2% on orders of $25.00 or over, 3% on orders of $50.00 or over, 4% on orders over $100.00.

How to Send Money. By Express Money Order, Post Office Money Order, Check, Draft, or Registered Letter, at our risk. We assume no risk if you remit in coin, currency or stamps enclosed in letter and not registered. Do not moisten or tear stamps apart.

Shipping Facilities. Ravenna is one of the best shipping points in the United States. We have three railroads, the Erie, Pennsylvania, and Baltimore & Ohio; also electric lines. All these lines carry express. No matter where you live, we can reach you quickly.

About Shipping. When shipments are to be made to stations having no agent, pre-payment of charges is necessary, hence we ask our patrons at such points to add enough to their remittance to cover charges. If you send too much, we will return the balance in money. When no shipping directions are given, we use our judgment to determine the route and method which will be most advantageous to our customers.

Errors. The utmost care is taken to fill all orders to the letter; but, if any errors occur in count or omission, please notify us at once, and they will be cheerfully corrected. Shortage or damage, however, must be reported at once on receipt of goods, or no claims will be allowed.

Order Early. Please order as early as possible; this will enable us to give better service, as late in the season we are crowded to our utmost capacity. All orders for seeds will be shipped as soon as possible; plants, trees and bulbs as early as season will permit. We reserve the right to substitute unless the order is specially marked no substitutes, but in all such cases we will supply a variety as nearly as possible like the one ordered.

FREE DELIVERY BY PARCEL POST DIRECT TO YOUR POST OFFICE, anywhere in the U. S. on all goods listed in this catalog, unless otherwise stated.

We Guarantee the safe arrival of all shipments made by us. Provided that any damage on account of delay in transit or loss by breakage or leakage or other causes is noted on your express or freight receipt and the same sent to us on receipt of the shipment. The same applies to Parcel Post shipments. In case of damage we put in a claim against the forwarders and remit to our customer as soon as collection is made or our customer may put in a claim; in which event we will supply the necessary papers.

We Guarantee our seeds to grow under favorable circumstances. Since there are so many conditions upon which the crop depends, we give no warranty, expressed or implied, as to description, quality, or productiveness, and we will not be in any way responsible for the crop. If the purchaser does not accept the goods on these terms, they are at once to be returned and the money paid will be refunded cheerfully. Should any seeds, plants or trees sold by us prove untrue to name, we will, upon proper proof, refill the order or refund the money.

Market Gardeners and large planters will find wholesale prices on Pages 22 and 23.
FORD'S SOUND SEEDS are sound in every way, as near as it is humanly possible to have them. They are grown in locations where we know they will attain the highest degree of perfection.

We supply our customer with the same high quality of seeds that we like to plant ourselves. We know that it pays best to plant only the best seeds.

We LIMIT OUR LIST OF VARIETIES TO THE VERY BEST.

ARTICHOKE

Large, Green Globe. Bears large flowerheads, which are prepared for eating the same as asparagus. The seed may be sown early in spring covering the seed 1 ½ to 2 inches deep. When the seedlings are one or two years old, they may be transplanted to the permanent bed. For home garden set plants 16 to 18 inches apart each way. In field culture make rows 4 feet apart and set plants 1 foot apart in the rows, with the crowns 4 to 5 inches below the surface. Rotted manure should be applied to the beds in the fall after cutting away the tops. Nitrate of soda, applied in the spring before growth starts, is beneficial when no rotted manure is used. Keep the beds thoroughly cultivated, which may be done before growth starts in the spring. Time will be saved by buying roots instead of seed.

Giant Argenteuil. Large, purple stalks, tender and of fine quality. Pkt. 5c., oz. 12c., ½ lb., 30c.

Palmetto. Light green; early, large and productive; quality of the best. Pkt. 5c., oz. 10c., ½ lb., 30c.

Columbian Mammoth White. Pure white of unusual quality. Pkt. 7c., oz., 13c., ¼ lb., 30c.

ASHLEY, The New Giant Rust-proof Asparagus. This is the result of years of plant breeding by the U. S. Department of Agriculture. It grows very large and being rust-proof makes it a very valuable variety for both home use and market. Pkt. 10c., oz., 20c., ¼ lb., 65c.

APRIL 10-

We sell large quantities of these each year. They produce asparagus for cutting one or two years sooner than seed.

BEETS

Prepare ground as for fine seeds, sow in rows 15 inches apart and 1 inch deep. When the plants are 3 or 4 inches high, thin them out to 4 inches apart. The young plants may be used for "greens." Make first sowing as soon as the ground can be worked and continue to sow what may be needed once in three weeks until the last of June or first of July.

PRICES on Beet seed quoted below include postage. See wholesale List Pages 22 and 23 for prices on larger quantities.

FORD'S IDEAL

We consider this the best of all beets. It will give you the finest beets that can be grown for home use or market. The roots are turnip-shaped, deep rich red, very tender and of a sweet, delicious flavor. No picture can do justice to the Beet itself—you must try it to know how good it is. They are hardy and can be planted early, so that they mature for the early market. If planted later in the season they can be stored for winter use and will retain their freshness for a long time if packed in sand or stored in a pit.

Crosby's Improved Egyptian. Quick-growing; best quality; for forcing or outdoor sowing; regular roundish; well colored. Pkt. 6c., oz. 10c., 1/4 lb. 27c.

MANGEL WURZELS

Grows to an enormous size in deep, rich soil; is an excellent keeper. Various reports from our customers who have grown it show yields of 1,400 to 2,000 bushels per acre. Close-grained, tender flesh of rich flavor. Pkt. 5c., oz. 10c., 1/4 lb. 20c., lb. 60c.

Ford's Danish Yellow. After being thoroughly tested by the Denmark Agricultural Trial Station, was awarded a "Certificate of First Class," and is considered the most nutritious Mangels for stock-feeding. The roots are long, ovoid, of fine yellow color, and grow to large size. Yields 25 to 50 tons per acre. Pkt. 5c., oz. 10c., 1/2 lb. 20c., lb. 60c.

Golden Tankard. Yields enormous crops; very rich in sugar; skin and flesh deep orange-yellow; oblong in shape. Pkt. 5c., oz. 10c., 1/4 lb. 20c., lb. 60c.

Mixed Varieties of Mangels and Sugar Beets. All Varieties. Pkt. 5c., oz. 10c., 1/4 lb. 20c., lb. 60c.

SPECIAL OFFER—8 Packets Beets, your selection of any of the preceding, 35c.

Sheep Manure Makes Beets Grow.

Wurzels Make the Cows and Chickens Laugh.

CHICORY

Witloof, or French Endive. Sow in April in the open ground, in drills 10 to 12 inches deep in rich soil. Allow the plants to grow until November. Then take up, the roots and trim off the leaves to about 1 1/2 inches from the neck, plant in any convenient place in cellar where it does not freeze, about 1 1/2 inches apart. If cellar is light cover the crowns with 6 or 8 inches of light soil, if dark it will need no covering. In four or five weeks the new leaves will attain proper size to make excellent salad. The roots may be dried and ground and make a good substitute for coffee. Pkt. 5c., 1/2 oz. 15c., oz. 25c., 1/4 lb. 65c.

CORN SALAD

Large Round-leaved. Sow the seed in August or September in very rich soil, rows 1 foot apart; cover not over 1/4-inch deep; roll the ground to secure good germination; cover when cold weather approaches with coarse litter. The seed may be sown in the early spring and will mature in 3 or 6 weeks. Pkt. 5c., oz. 15c., 1/4 lb. 40c.

CRESS

Good for greens, sandwiches, garnishing, etc.

Curled Garden, or Pepper Grass. A very rapid grower. Pkt. 5c., oz. 10c., 1/4 lb. 27c.

True Water Cress. Grows in streams and ponds; when once started it will reproduce itself each year. Pkt. 10c., 1/2 oz. 25c., oz. 45c.
CABBAGE

Cabbage seed has been a specialty with us for years, and our customers say the seed is good, because they get good results, and that is always the final answer. One customer wrote us that "From one and one-half acres of Glory Cabbage we sold $650 worth." Another writes that from 1,000 plants grown from Ford's Seed he raised 1,00 solid marketable heads.

How to Grow Cabbage. For early, the seed should be sown in hotbed in March. For general crop, sow the latter part of May in open ground and in July transplant into rows 2 J4 by 2 feet or more for large-growing varieties; cultivate often.

Prices on this page include postage.

FORD'S GLORY CABBAGE

The Best of All Cabbages. Glory has proven satisfactory wherever it has been planted. It matures quite early—about as early as the Wakefield, but makes a larger head than that variety, is much more solid and does not burn as badly. The stems are short, heads almost round, slightly flattened at the top and are extremely solid. There are few loose leaves, which is a great advantage, as the plants may be set very close together. The heart is white crisp-fine-grained, and tender, and cooks quickly. Owing to its earliness and the hardiness of the heads it is an unusually good market sort. If the seed is sown in this latitude between June 1 and 10, it will produce excellent heads for winter use. It always sells for top price in market. The best of all for Kraut. Pkt. 10c., 3/4 oz. 20c., oz. 30c., 1/4 lb. 75c.

Wibolt's Round Express. This is a new round headed cabbage similar to Copenhagen Market, but from one to two weeks earlier. It is solid, medium size, fine quality and a money maker for the market gardener as it can be placed in the market earliest, commanding a high price. Don't fail to try this grand variety. Pkt. 10c., 3/4 oz. 25c., oz. 40c., 1/4 lb. $1.25.

Golden Acre. Very early small to medium, solid, round heads excellent quality for market or home use. Pkt. 10c., 3/4 oz. 25c., oz. 40c., 1/4 lb. $1.25.

Copenhagen Market. Originated in Denmark. The heads are large, round, and very solid, with a few outer leaves. It matures with the Jersey Wakefield and has become very popular with market-gardeners. Pkt. 6c., 3/4 oz. 20c., oz. 30c., 1/4 lb. 75c.

Large Jersey Wakefield, or Charleston. Pkt. 5c., 3/4 oz. 15c., oz. 25c., 1/4 lb. 75c.

Early Jersey Wakefield, Select Stock. Pkt. 5c., 3/4 oz. 15c., oz. 25c., 1/4 lb. 75c.

Early Winningstadt. Pkt. 5c., 3/4 oz. 12c., oz. 20c., 1/4 lb. 60c.

Allhead Early. Pkt. 5c., 3/4 oz. 12c., oz. 20c., 1/4 lb. 60c.

Danish Roundhead. Solid; white; medium early and an excellent keeper; particularly good for storing in winter for early spring sales when sown late. Pkt. 6c., 3/4 oz. 20c., oz. 30c., 1/4 lb. 90c.

Henderson's Succession. Pkt. 5c., 3/4 oz. 12c., oz. 20c., 1/4 lb. 60c.

Houser. Very late; heads weigh 10 to 12 pounds apiece; they do not burst easily, but are solid, crisp and tender; a splendid variety, plants can be set close. Pkt. 10c., 3/4 oz. 25c., oz. 40c., 1/4 lb. $1.40.

Danish Ballhead. A particularly good variety of Danish origin and much prized by American growers on account of its solidity and great keeping qualities. It may be sown in the fall, and in the spring will be found to have retained its fine quality. Our seed is the solid-headed, short-stemmed type. Pkt. 6c., 3/4 oz. 20c., oz. 30c., 1/4 lb. 75c.

Penn. State Ball Head. A highly developed and improved strain of Ball Head, representing ten years of careful breeding by the Penn. State College. It produces more tons per acre and is less subject to disease than the original strain of Ball Head.

The much larger crops grown from this variety will justify our customers in paying the higher price asked for it. We are confident you will be highly pleased with its quality and the big profits it will return to you. Carefully grown and selected seed Pkt. 15c., 3/4 oz. 45c., oz. 60c., 1/4 lb. $2.75, lb. $10.00.

All Seasons, or Vandergaaw. Pkt. 5c., 3/4 oz. 12c., oz. 20c., 1/4 lb. 60c.

Danish Dark Red. Produces solid, deep red, medium-sized heads. Seed should be sown about May 1. Pkt. 6c., 3/4 oz. 20c., oz. 30c., 1/4 lb. 75c.

Mammoth Red Rock. The largest heading red Cabbage—heads weight 10 to 12 pounds each; uniform; solid. Pkt. 6c., 3/4 oz. 20c., oz. 30c., 1/4 lb. 75c.

American Drumhead Savoy. One of the best of the curly-leaved type; compact growth; excellent; early. Pkt. 5c., 3/4 oz. 15c., oz. 20c., 1/4 lb. 75c.

Surehead. Pkt. 5c., 3/4 oz. 12c., oz. 20c., 1/4 lb. 60c.

Premium Flat Dutch. Pkt. 5c., 3/4 oz. 12c., oz. 20c., 1/4 lb. 60c.

SPECIAL OFFER—10 packets of Cabbage seed, your selection of any of the varieties listed on this page for 45c.

CHINESE CABBAGE

Pe-tsai belongs to the Cabbage family, and was introduced into this country from the Orient. For early use, sow in hotbeds in February or March. When weather is warm, transplant to open ground. Make rows 21/2 ft. apart and plants 1 ft. apart in row. For main crop, sow in July or August. When well grown, tie the plants up loosely to blanch. If taken up and roots packed in sand they will keep in cellar for winter use.

Peking. Head somewhat spreading; heart blanches creamy white, crisp, and with celery-like flavor. Pkt. 5c., 3/4 oz. 15c., oz. 25c., 1/4 lb. 75c.

Paoting. Head compact; foliage in-curved. Grows as well during the summer as in cold weather. Heads frequently 15 pounds. Pkt. 8c., 3/4 oz. 20c., oz. 30c., 1/4 lb. 60c.

HAMMOND'SSlug-Shot kills Cabbage Worms and other injurious Worms and Bugs. We recommend it, 5 lb. pre-paid, 75c. Not pre-paid, 5 lbs. 50c. Keeps indefinitely. Have a supply always on hand.

LEEK

American Flag. An excellent large-growing variety; we consider it the best. Sow same as onions. Pkt. 6c., oz. 20c., 1/4 lb. 60c.

WE CAN PLEASE YOU

"I received my order yesterday and am very well pleased with them. I shall recommend your seeds, bulbs, and plants to my friends."—Mrs. Nora M. Jenks, Ohio.
EXTRA EARLY CABBAGE FROM FROST-PROOF PLANTS.

“FROST PROOF” CABBAGE PLANTS

Will Mature Heads Two to Three Weeks Earlier Than Your Home Grown Plants and Double Your Profits.

These are grown along the Sea Coast of South Carolina and Georgia, where the soil and climatic conditions are suited for growing tough, hardy plants during the Winter and early Spring. They can be shipped to territory farther north and be planted in the open ground a month to six weeks sooner than the home-grown hot bed plants. These will stand a temperature of 20 degrees above zero without injury.

To get the advantage of these frost-proof plants they must be planted a month or six weeks earlier than home-grown plants. We fill orders from December 1st to May 1st.

The plants when received will be wilted and have a hard stunted appearance. Regardless of appearance, they will produce the crop results.

Varieties: Early Jersey Wakefield, Charleston Large Type Wakefield, Succession and Copenhagen Market.

CABBAGE PLANTS

See Special Plant Department for prices on Home Grown Cabbage and other plants.

CAULIFLOWER

Soil should be deep and rich, with plenty of moisture. Sow the seed in early March in hotbeds, then transplant to coldframes and gradually harden off the plants. For late Cauliflower sow the seed of May.

Henderson’s Early Snowball. Very early; produces large, white heads of fine quality. This is the most popular of all Cauliflowers and a very reliable variety for market or home use. Pkt. 15c., 3/4 oz. 60c., 1/2 oz. $1.10, oz. $2.00.

Ford’s White Surehead. A little later than Snowball, with larger leaves. Very solid, white heads, of finest quality. It withstands dry, hot weather in fine shape. Pkt. 15c., 3/4 oz. 60c., 1/2 oz. $1.10, oz. $2.00.

Ford’s White Surehead Cauliflower

EGGPLANT

Seed should be sown in a hot-bed in March and the small plants moved to small pots or flats. After danger from frost is past, the plants are set 2 to 3 feet apart in rich soil. Potato bugs should be guarded against.

Pride of Sunnyside, or Black Beauty. Early large, and productive; quality excellent, color deep, glossy maroon. Pkt. 8c., 3/4 oz. 25c., oz. 40c., 1/2 lb. $1.25.

New York Improved Spineless. Valuable sort; large; deep purple, with tender, white flesh of highest quality. Pkt. 8c., 3/4 oz. 25c., oz. 40c., 1/2 lb. $1.25.

EGGPLANT PLANTS

Ford’s White Surehead and Henderson’s Early Snowball. Early sowing ready April 20 to July 20. 30c. per doz.; $2.00 per 100. Late sowing ready June 15 to August 1. Doz. 25c., 100, $1.10 pre-paid. Not pre-paid, 100, $1.00, 1,000, $5.00.

COLLARDS

For a succession sow seed in June, July and August. When plants are 3 to 4 inches high, transplant to rows 1 foot apart each way for garden or farther if to be cultivated with horse cultivator.

Grown very extensively in the South. It resembles a loose cabbage; is used for greens.

True Georgian or Creole. The best variety. Pkt. 5c., oz. 10c., 1/2 lb. 25c.

DANDELION

Improved Large-leaved. Valuable for greens, etc.; leaves are twice as large as those of the common variety. The seed can be sown in drills in ordinary garden soil, and after the plants are well started, thin to 6 or 8 inches apart. The leaves may be pulled over the center and tied, if blanching is desired. Pkt. 10c., 3/4 oz. 40c., oz. 75c.

Garlic roots for planting pre-paid, 1/2 lb. 18c., lb. 30c., 4 lbs. $1.00.

Ford's Sound Sweet Corn

Price of all Sweet Corns unless otherwise noted. Pre-paid Pkt. 10c., 1/2 lb. 16c., lb. 30c., 3 lbs. 75c.

For a good many years we have been specially interested in developing new varieties of Sweet Corn. A great many experiments have been made, and from all of these we have retained four sorts that we can recommend to all our friends—Ford's Early, Ford's Golden Sugar, Ford's Nectar and Ford's Improved Mammoth. These four Sweet Corns will keep your table supplied from early summer until late September, or even into October.

Sweet Corn should be planted from May 1 to July 1, in hills 3 to 4 feet apart each way, 5 kernels to a hill, covering an inch deep. When the plants are 4 to 5 inches tall, pull out all but two or three. Cultivate frequently.

One pound of seed will plant about 225 hills; 12 pounds for an acre. As there is no legal weight for Sweet Corn, we quote it by the pound. Different varieties vary in weight per measured bushel, from 40 to 48 pounds.

FOR FD'S EARLY. Ready for use in 60 to 65 days after planting. Scores of our customers who know this variety say that it surpasses all other early Sweet Corns in quality. The ears are from 6 to 9 inches long, and contain 8 rows of pure white kernels, which are large and extra deep for an early Corn. The stalks grow 5 to 6 feet high, can be planted more thickly than most varieties, and frequently produce two ears to the stalk. On account of its earliness, size and quality, it is unsurpassed by any variety for home or market purposes. Many of our market-garden customers practically monopolize the early trade in Sweet Corn by growing Ford's Early. It very frequently sells for 50c per doz. on the early market. If the seed is planted at intervals of about two weeks through the season, Ford's Early will furnish a succession of Sweet Corn until frost kills the plants. See illustration at the left.

NECTAR. The grandest of all second-early Sweet Corns. Nectar was originated by Mr. Hamilton DeGrave, late of the firm of DeGrave & Farae of New York. It was first offered to the public in 1906, it is a cross between Malakhoff and White Evergreen. It is unusually productive. It is very hardy and will stand more wet and cold weather without rotting in the ground than many early varieties. The stalks grow from 6 to 7 feet high, and many of them produce two large ears. There are usually 12 or 14 rows of kernels, very deep, resembling Stowell's Evergreen. For market-gardening this is the best second-early variety to follow Ford's Early. The ears will remain in good condition for some time after they are ripe enough to gather. See prices elsewhere in this book.

FORD'S GOLDEN SUGAR. This New Corn is a cross between the White Evergreen and Golden Bantam. It is the one corn for the market gardener who wants the greatest amount of the highest quality corn in the shortest period of time from the smallest piece of land. It is because of the extreme tenderness, combined with the exquisite rich sugary flavor, that the Golden Giant has become the standard of perfection for sugar corn and when you consider that its admirers report that it is one or two weeks earlier and two or three times as large as its own parent, the Golden Bantam, of better quality, deeper color and more productive, you may be sure that it has well earned the title of "The New Master of the Fields."

DeLUUE'S GOLDEN GIANT. This new yellow Sweet Corn was first offered to the public in 1922, except by the originator and we quote below his description.

DeLue's Golden Giant excels all other early varieties in size, productiveness and quality, and all of the late varieties in quality and early maturity. It is the one corn for the market gardener wants the greatest amount of the highest quality corn in the shortest period of time from the smallest piece of land. It is because of the extreme tenderness, combined with the exquisite rich sugary flavor, that the Golden Giant has become the standard of perfection for sugar corn and when you consider that its admirers state that it is one or two weeks earlier and two or three times as large as its own parent, the Golden Bantam, of better quality, deeper color and more productive, you may be sure that it has well earned the title of "The New Master of the Fields."

FORD'S IMPROVED MAMMOTH. A late all-round, every-purpose variety. For market, for canning, drying, or other home uses, the quality is unexcelled. If the seed is not planted too thickly the stalks will usually produce two ears each. The ears are large, medium thick, remaining good for table use for some time after maturity.

SWEET CORN IS BEST WHEN FRESH FROM THE GARDEN

A NEW SWEET CORN
BARDEEN'S WONDER BANTAM

A great improvement on the Golden Bantam. It is more vigorous, productive and as early as the Bantam, having the marked advantage of having much larger ears set up higher on the stalk. "The stalks grow from five to six feet in height and have ears eight to ten inches in length filled with eight rows of rich golden colored kernels. It is a variety that will appeal to the critical Market and Home Gardener as well as the Canner who has been looking for a Bantam corn that will produce more tonnage per acre and at the same time not sacrifice its high quality.

This variety has given excellent results.

Price pre-paid, Pkt., 10c., ½ lb., 20c., lb., 35c., 3 lbs., 90c.

Stowell's Evergreen. A leading late variety. The ears are large and remain in good condition for several days after maturity. Stalks are strong and often produce two ears each. Stowell's Evergreen weighs only 40 pounds per measured bushel. Extra Select Seed. Price Pkt., 10c., ½ lb., 16c., lb., 30c., 2 lbs., 75c.

Malakhoff. Introduced from Russia by the U. S. Department of Agriculture. We believe that Malakhoff is the earliest Sweet Corn in existence. The stalks grow about four feet high, bearing ears from 4 to 5 inches long, packed up to the tip with white kernels. The flavor is especially good, and it is exceedingly tender.

Price pre-paid, Pkt., 10c., ½ lb., 20c., lb., 35c., 3 lbs., 90c.

Black Mexican. Many of our customers consider this the best of the medium-season Sweet Corns, cob of medium size; kernels black: very sweet. Price, Pkt., 10c., ½ lb., 16c., lb., 30c., 3 lbs., 75c.

Sweet Fodder Corn. A mixture of number of varieties. May be sown broadcast or drilled in for fodder.

Price pre-paid, lb., 25c., 3 lbs., 70c.

A PACKET OF SEEDS FOR NAMES

It will please us if you will send us the names and addresses of 5 or 6 of your neighbors and friends when sending in your order. For this favor you may select any packet of seeds priced at 10c. or less that you desire.

Remember we give extra seeds, our selection, with every order in addition to the above offer.

POP CORN

Japanese Rice. Also called Australian Hulless, Tom Thumb, Dwarf Rice. It is dwarf-growing very heavy yielder; ears short and thick; kernels long but very slim, pure white. It pops perfectly, is very tender, and of the finest quality known to Pop-Corn.

Price pre-paid; Pkt., 10c., ½ lb. 17c., lb. 30c., 2 lbs. 55c.

Black Beauty. This is a new variety of recent introduction. It is extremely early, ripening so that it may be popped the same season as grown without kiln-drying. It is considered the most tender and crisp of any of the standard varieties, and although the grains are black, the color does not show at all when the Corn is popped, being then pearly white. Our customers will make no mistake in planting this early variety. Price, Same as Japanese Rice.

Queen's Golden. Stalks 6 feet high; three to six large ears to each; pops creamy white, grapes often expanding to an inch across, tender and delicious.

Price: Pre-paid. Pkt. 10c., ½ lb. 15c., lb. 25c., 2 lbs. 45c.

Monarch White Rice. A very productive variety, with the ears coming true to type; grains tender, white, sweet and very large when popped; three to six ears per stalk. Price, Same as Queen's Golden.

ENDIVE

Endive is a salad for fall and winter use. The seed is sown in drills in June or July, and the plants thinned out to a foot apart or transplanted. When they are nearly full grown, the heads are blanched by being tied together to keep out the sun. This must be done when the leaves are dry. The plants bleach in two or three weeks. For summer use, sow in April.

Moss Curled, or White Curled. Fine quality; leaves beautifully curled. Pkt. 5c., oz. 12c., ½ lb. 33c.

Broad-leaved Batavian. Broad, thick, slightly curled leaves, forming a large head. Pkt. 5c., oz. 12c., ½ lb. 33c.

KALE, or BORECOLE

Seed should be sown in May or June, and the plants given the same cultivation as cabbage. For winter use, sow the seed in September and protect the plants with a light covering of straw or leaves.

Dwarf Green Curled Scotch. Can be wintered in open ground if the temperature does not fall below zero; improved by a sharp frost; leaves bright green and beautifully curled. Pkt. 5c., oz. 10c., ½ lb. 30c.

Blue Siberian. Very beautiful and good quality. Pkt. 5c., oz. 10c., ½ lb. 30c.

Market Gardeners Will Find Wholesale List On Pages 22 and 23.
CARROTS

For an early crop the seed should be sown from the first to the middle of April, and for the latter crop about the first of June. The seed should be planted 1/2 inch apart, covering about 1/2 inch when the plants come up, thin to 4 inches apart in the rows. It is a remarkably good yielder and a splendid variety. Pkt. 5c., oz. 15c., 1/4 lb. 35c.

Fordhook Farmous. Plants, strong, vigorous, and productive, showing no signs of blight in our grounds, excellent for slicing or, when small, for pickling, tender and crisp. They taper to a blunt point which makes them easy to pull. Pkt. 5c., oz. 15c., 1/4 lb. 35c.

Extra-Long White Spine, or Evergreen. Frequently 12 inches long; good shape and quality; early and prolific. Pkt. 6c., oz. 16c., 1/4 lb. 45c.

DAVIS PERFECT. Dark glossy green; slim and well-shaped; averages 10 to 12 inches long; splendid for home use or market for slicing or making ripe pickles. Pkt. 6c., oz. 15c., 1/4 lb. 45c.

Early Cluster. Very early, short, thick, productive, good for pickling. Pkt. 6c., oz. 15c., 1/4 lb. 35c.

Westfield's Chicago Pickle. Vines vigorous; very prolific; Cucumbers mature early. Of regular size and shape; dark green. Pkt. 6c., oz. 15c., 1/4 lb. 35c.

Thorburn's Everbearing. Extremely early; sometimes ready 45 days after planting; vines vigorous; prolific. Pkt. 6c., oz. 15c., 1/4 lb. 45c.

White Wonder. Ivory-white from the time they start to grow; good shape and quality for pickling or slicing; crisp; uniform size; vine is a rapid grower and prolific. Pkt. 7c., oz. 20c., 1/2 lb. 50c.

West India Gherkin, or Bur. A small variety for pickles. Pkt. 6c., oz. 20c., 1/4 lb. 47c.

Japanese Climbing. An odd variety, making a growth of 10 to 12 feet; very prolific; quality right; vines bear until frost; crisp; of fine flavor; very few seeds; flesh thick and firm. Pkt. 6c., oz. 15c., 1/4 lb. 40c.

SPECIAL OFFER—1 packet each of 10 varieties of Cucumbers, your selection, 45c.

**CELELY**

For early Celery sow seed in February or March in hot-beds. Transplant when two or three leaves develop. Plant in field when danger of frost is passed in rows 3 to 5 feet apart and 6 inches apart in the rows. Blanch by banking up with soil or placing boards or paper against the rows. Sow seed for late Celery in seed-beds in April or May.

Golden Self-Blanching. Partially blanches itself, but is better if banked or boarded up. The leading early market variety, good keeper and seller. Choiceest French Grown tested seed not to be compared with the cheap seed commonly offered. Pkt. 10c., 3/4 oz. 40c., oz. 75c., 1/2 lb. $2.60.

**"WONDERFUL" CELERY**

This improved Celery brings the highest price, because of its large size, high quality, extreme earliness, and beautiful appearance.

From all we can learn of the "Wonderful" it has proven to be indeed the most wonderful celery ever introduced and has created a sensation where grown.

The "Wonderful" was originated by Mr. S. J. Meisch and is the result of twenty years of Systematic Seed selection. Celery growing made Mr. Meisch rich and this celery which was the triumph of his life work is a fitting and most valuable heritage to all celery growers.

Columbia. The leading late, market variety, fine quality, good shipper, has no superior for market. Pkt. 6c., 3/8 oz. 25c., oz. 40c., 1/2 lb. $1.02.

Easy Blanching. Blanches easily, early, fine quality; thick, brittle stalks; good for winter if planted last of April. Pkt. 10c., 3/8 oz. 25c., oz. 35c., 1/2 lb. $1.25.

Giant Pascal. Stalks grow large, very crisp, finest nutty flavor, nothing better for home use on account of its excellent quality. Pkt. 6c., 3/8 oz. 25c., oz. 25c., 1/2 lb. 65c.

Old Celery Seed. For flavoring, not planting. oz. 10c., 1/2 lb. 22c., lb. 55c.

**CELERIAC**

Also called Turnip-Rooted Celery. Roots which are 2 to 4 inches through are used for soups.

Apple-Shape. We consider this the best variety. Pkt. 6c., 3/8 oz. 25c., oz. 25c., 1/2 lb. 67c.

**KOHRLABI**

Kohlrabi may be had constantly by sowing several crops a few weeks apart. The usual method is to sow the seed in drills 18 inches apart and thin the plants to 5 inches apart.

Early White Vienna. Flesh white and tender; should be used before fully grown. Pkt. 6c., oz. 20c., 1/2 lb. 60c.

Early Purple Vienna. Same as the above except that it is bluish purple. Pkt. 6c., oz. 20c., 1/2 lb. 60c.

Celery is Considered a Good Brain Food.
LETTUCE FROM YOUR OWN GARDEN IS BEST.

FORD'S SOUND LETTUCE SEED

Lettuce may be grown in hotbed in winter, but for ordinary garden sown in spring and thereafter in succession once in two or three weeks. Make the rows 15 inches apart and cover 1/2 inch deep with fine soil, which should be firmed above the seeds. When the plants are up thin out to 3 or 4 inches apart and when those remaining are large enough for use, every other one may be taken out and leave room for the remaining ones to grow.

The head varieties should have 10 to 12 inches of space between the plants to form good heads.

Our Lettuce Seed is very carefully selected and will please the most critical gardeners.

Grand Rapids Forcing. The best of all loose leaf lettuces for market or home use, either for the garden or under glass; requires less care, will grow more weight in same space; is less liable to rot; and will keep longer without wilting than any we know of: fine appearance; crisp and tender. Pkt. 5c., oz. 15c., 1/4 lb. 43c.

Iceberg. Solid, compact heads; inside thoroughly blanched and of finest flavor; crisp, even in hot, dry weather. Pkt. 6c., oz. 15c., 1/4 lb. 43c.

Big Boston. Very early; leaves light green, tender, excellent quality. The most popular head lettuce for market. Pkt. 6c., oz. 15c., 1/4 lb. 43c.

Early Prize Head. Very crisp, large; does not seed easily; outer leaves reddish brown, inner leaves light green, with almost clear, white heart. Pkt. 5c., oz. 15c., 1/4 lb. 43c.

Improved Hanson. Large, solid heads; outer leaves green; inner leaves white; tender, crisp, entirely free from bitter taste. Pkt. 6c., oz. 15c., 1/4 lb. 43c.

Denver Market. Large head; light green; crisp, tender of best flavor; leaves oddly wrinkled. Pkt. 6c., oz. 15c., 1/4 lb. 43c.

California Cream Butter. Fine, solid heads. One of the best. Pkt. 6c., oz. 15c., 1/4 lb. 40c.

Henderson's New York. Large, green heads with closely folded leaves; inner leaves blanch to rich golden yellow. Pkt. 10c., oz. 20c., 1/4 lb. 65c.

Black-seeded Simpson. Produces masses of curly crumpled, light green leaves. Standing the summer heat well. Good for forcing. Pkt. 6c., oz. 15c., 1/4 lb. 43c.

Triannon, or Celly Lettuce. The best strain of the well-known Coss type; has long, narrow leaves forming solid, cabbage-like heads, blanching snowy white; crisp and tender. Pkt. 6c., oz. 20c., 1/4 lb. 60c.

Mixed. Pkt. 5c., oz. 15c., 1/4 lb. 43c.

Old Lettuce Seed. For birds. Pre-paid 17c. per lb. Not for planting.

SPECIAL OFFER—1 packet each of 10 varieties of Lettuce, your selection, 45c.

"I have been dealing with the Ford Seed Co. for the past 24 years and have never had any reason to complain, as I have always found the seeds reliable."—Mrs. Anna Brunter, Ohio.
Melons are strictly a tropical fruit, and there is no use in planting the seed before the ground is warm. The middle of May is plenty early enough to put in the seed, but if extra-early melons are desired, the seed may be sown in a hotbed on sod and transplanted in the same manner as cucumbers. The hills should be made at least 6 feet apart each way for Muskmelons, and 8 feet for Watermelons. The hills should be prepared in practically the same way as for cucumbers. When the plants come up and danger of bugs is over, thin them out to three or four plants to the hill. Hammond’s Slug-Shoot, sprinkled freely over the young plants, will prevent serious damage by the bugs and will not injure the plants. Spraying with Bordo will prevent blight. We can supply both of these. See quotations on page 46.

**GOLDEN CHAMPLAIN.**

Very early, and brings in the money before other kinds start ripening, of Ohio origin. It is a hardy and vigorous grower, yielding heavily, having produced crops returning $700.00 to $1,000.00 per acre. The melons are of good size, ribbed, skin dark green overlaid with heavy netting giving them an attractive appearance. The flesh is a rich golden color, free from stringiness, fine grained, melting, juicy, sweet delicious flavor clear to the rind.

*The Golden Champlain Melon is three weeks earlier than any other varieties we raise. Had the reputation of being the finest quality melon on the market and always commanded the highest prices. We realized at the rate of $1,000.00 per acre on our Golden Champlain while other varieties only $150.00 per acre, due to vines dying before later melons ripened."

J. M. R., Lewisberry, Pa. Pkt. 10c., oz. 20c., 1/4 lb. 53c.

**Pollock No. 10-25. Medium Early; nearly round, heavily netted, seed cavity very small, flesh very thick, rich Salmon colored shading to green near the rind and of excellent quality. This melon is grown more extensively than any other in the Rocky Ford district and is shipped to all the best markets of the U. S.*

Pkt. 5c., oz. 12c., 1/4 lb. 35c.

---

*These Melons Fairly Melt In Your Mouth.*

Nicholson’s Honey Ball. A cross between Honey Dew and Cannonball of Texas origin, ripens in about 100 days, round, 6 1/2 inches in diameter, good keeper and shipper.

**HONEY DEW.**

This melon is light cream color, changing to a more yellowish cream as it ripens; grows to weigh 7 to 8 pounds; nearly perfectly round, perhaps slightly oval. Flesh is very deep green, wonderfully sweet and juicy, with a fine fragrance. The grain of the flesh is not overly fine. The growth of the vine is more rugged than the ordinary Cantaloupe; the leaf is broader and heavier. It ripens about a week later than the ordinary type of Rocky Ford melon. The fruits can be kept for two months. Pkt. 6c., oz. 15c., 1/4 lb. 40c.

**Emerald Gem.** Very early; smooth skin, emerald-green; flesh salmon-color, ripening right to the rind; sweet luscious flavor; vines hardy, thrifty, and prolific. Pkt. 6c., oz. 12c., 1/4 lb. 35c.

Extra Early Hackensack. Very Early an old favorite. Pkt. 5c., oz. 10c., 1/4 lb. 35c.

Burrell’s Gem. Orange-colored flesh, of superior quality. Pkt. 5c., oz. 12c., 1/4 lb. 35c.

Banana. Flesh light green to salmon; 2 to 3 feet long; fine quality, productive, good. Pkt. 6c., oz. 15c., 1/4 lb. 40c.

Winter Pineapple, or Santa Claus. Have Muskmelons for Christmas. If gathered before severe frost and placed in a dry, cool cellar, it will keep for months. A few days before using, it should be placed in a warm room to ripen, as it does not ripen on the vine. Flesh almost solid, light green; spicy, melting and delicious, rich pineapple flavor. Pkt. 6c., oz. 15c., 1/4 lb. 40c.

Netted Gem, or Rocky Ford. The melons are of uniform size, weighing 1 1/2 to 1 3/4 pounds, nearly globeshaped. Green skin, heavily netted; flesh thick, light green, of fine quality, rich and sugary; very early and prolific. Pkt. 5c., oz. 10c., 1/4 lb. 30c.

Osage, or Miller’s Cream. Melon is nearly round, heavily netted; egg-shaped; medium size, uniform; flesh thick, rich salmon-color; delicious, melting flavor. One of the very finest. Pkt. 6c., oz. 12c., 1/4 lb. 35c.

Tip-Top. Good quality; yellow, firm, but not hard; edible right to the skin; sweet, juicy, of the finest flavor. A popular market variety; always sells at top price. Pkt. 6c., oz. 15c., 1/4 lb. 35c.

Paul Rose. Melons averaging about 5 inches through, nearly round; solid; seed-cavity small; flesh rich salmon; good quality. Pkt. 5c., oz. 12c., 1/4 lb. 35c.

FORD'S SOUND ONION SEED

It is of the utmost importance to use good seed, not only good, strong-growing seed, but seed that has been saved from good, well-ripened, and selected Onions. We offer the best possible strains, and have taken particular care in the selection of all the varieties we list herewith.

Prices on Onion Seed, include postage. See pages 2 and 23 for wholesale prices.

OHIO YELLOW GLOBE  
THE BEST OF ALL ONIONS

Our Ohio Yellow Globe. Produces the most perfect Globe Onions in existence. The onions are of uniform size, well colored, fine and solid. They ripen early and all at one time; most excellent keepers and can be marketed at a time when prices are highest. Our strain is very productive; from 600 to 800 bushels per acre is not at all uncommon. The seed we offer is grown under careful supervision from choice, selected bulbs. The illustration shows the shape and quality of bulbs from which the seed we sell is grown. Plant this seed at the rate of 4 or 5 lbs. per acre. Pkt. 8c., oz. 20c., 1/4 lb. 60c.

Bottle Onion. Color reddish-brown often grows 5 or 6 inches long and half as thick as it is long. A long keeper of fine quality. Pkt. 10c., oz. 50c.

Extra-Early. One of the earliest, bulbs paper-white, 1 to 1 1/2 inches in diameter; fine flavor; used largely for pickling. Pkt. 7c., oz. 25c., 1/4 lb. 70c.

Mixed Italian. Large packets. Pkt. 10c., oz. 25c.

SPECIAL OFFER—1 packet each of 10 varieties of Onions, your selection, 60c.

Attention Onion Growers

For sowing Onion seed as well as every other kind the Iron King Drills are excellent. They do a perfect job sowing evenly and covering the right depth. See Page 47. The Iron King Cultivators run straddled or between the rows and do excellent work. See Page 47.

Ideal Weeder are always perfectly satisfactory, each 23c., 5 for $1.00.

Rex Bordo prevents blight. See Page 46. Sheep Manure is an excellent fertilizer for onions as well as other crops. See Page 45.

ONION SETS

We would advise our customers to place orders early for Onion Sets. We usually commence shipping about March 1. Small lots can be sent out at any time. Our market-gardener friends will be highly pleased with our Onion Sets, as they are clean and bright, carefully screened, and are nice and sound. Early Onions grown from Sets make a profitable crop.

The prices given herewith are for the finest stock that can be secured. Prices are, subject to change without notice. We will send all the Sets we can for money sent us at time order is received. Special quotations on larger quantities furnished on request.

We handle large quantities of these during the fall season, and shall be pleased to quote prices for shipment any time after August 1. We can furnish both the Yellow Bermuda and Prizetaker. Special quotations on larger quantities furnished on request.

SPECIAL OFFER—1 packet each of 10 varieties of Onions, your selection, 60c.

PARSLEY

Parsley seed is very slow to germinate and usually three to four weeks will elapse before the small plants will push through the soil. If seed is soaked for a few hours in lukewarm water it will hasten the germination. Sow thickly in shallow drills about 1 foot apart, and cover lightly with fine soil. Protect by a cold frame or a thick layer of leaves during winter.

Champion Moss Curled. Leaves twisted and curled in fantastic shapes. Rich green. We consider this the best variety for pickling, it is very beautiful. Pkt. 5c., oz. 10c., 1/4 lb. 25c.

Hamburg, or Turnip-rooted. The roots of this variety only are used. Pkt. 5c., oz. 10c., 1/4 lb. 25c.

Sheep Manure is an excellent fertilizer for onions as well as other crops. See Page 45.

ONION PLANTS

These are Southern grown and may be planted as early as seed can be sown and produce a crop of great big nice onions long before those grown from seed are ready.

PARSNIPS

Start seed in hotbed last of March or first of April. When plants are 2 inches high, transplant into flats, 2 or 3 inches apart. When danger of frost is over set in rows 2½ feet apart and 18 inches in the row. A small amount of Sheep or Chicken manure scattered around the plants and hoed in, will add to their productiveness.

PERFECTION or Pimento Pepper. largely used for making the "pimentos" of commerce. It is largely heart-shaped; very smooth and glossy red when ripe. The wall or shell is very thick, sweet and delicious, entirely free from pungency. It is a good Pepper for all purposes where a sweet Pepper is desired. The plants are productive and continue to bear till killed by frost. You will be highly pleased with this variety. Pkt. 7c., ½ oz. 15c., oz. 25c., ¼ lb. 85c.

New Giant, or Chinese Giant. Sometimes 15 inches around; flavor mild; excellent for pickling; good yielder. Pkt. 10c., ½ oz. 30c., oz. 50c., ¼ lb. $1.60.

ROYAL KING. A new variety of extra-large size. Rich, glossy green turning to brilliant crimson when ripe. Flavor is sweet and mild, and because of size and quality it makes a splendid Pepper for slaws, for stuffing and baking, or for pickling. Pkt. 8c., ½ oz. 20c., oz. 35c., ¼ lb. $1.00.

Red Cluster. One of the earliest; small, slim, pungent; bright coral red; plants bushy, bearing the Peppers in large clusters at the top. Md be dried and used for seasoning during the winter. Pkt. 8c., ½ oz. 25c., oz. 45c.

Neapolitan. The earliest of all; 4 inches long, and 1½ to 2 inches through; mild flavor; bright glossy red. Pkt. 7c., ½ oz. 15c., oz. 45c.

"Your Glory Cabbage is the best that I ever raised."—J. W. Kidwell, Ky.

"Am sending my usual order, have just celebrated my eightieth birthday, but cannot remember when I first got seeds from you, think it is half the eighty. But I want to tell you how well pleased we were with the ten mixed dahlias, no two alike and all your best kinds."—Mrs. Durkes, Mo.

"Have been planting your seeds for years and have never had a failure."—Mrs. O. H. Logan, Ohio.

"Have received my strawberry plants and will say they were beyond my expectations. Never had nicer plants. I surely am a satisfied customer."—Mrs. Lake, Ohio.
BIG YIELD FROM CERTIFIED SEED POTATOES.

Certified Seed Potatoes

The term “Certified” as applied to Seed Potatoes implies that the crops while growing and after digging have been inspected by good authorities and have been found comparatively free from any disease.

To pass inspection these crops must be vigorous to withstand the ravages of disease. This vigor gives to the seed the ability to produce big crops increasing the yield per acre 30 to 80 bushels according to the variety.

The increased yield more than pays for the seed even at the higher price of the certified seed. The crop raised from it is of better quality and sells at the highest price.

We always try to have the best of everything and believe in handling Certified Seed Potatoes, we are giving our customers the best possible in seed potatoes.

All orders should be in early. Increase your yield by planting Certified seed this year.

We quote at time of making up this catalog prices are shown below.

We may have others to offer when shipping season opens.

SWEET POTATOES

Sweet Potatoes may be grown in almost any sandy or loose loam soil. The plants should be set out during the latter part of May or in June in rows 3 ft. apart. Plants should be 1 ft. apart in the row. Use plenty of fertilizer and cultivate thoroughly until the vines prevent further cultivation. We can furnish either tubers or plants. If tubers are wanted they should be ordered before April 1st.

Sow the seed early in the spring, and care for the plants as for parsnips. The roots may be dug in fall and stored in sand or moss in cellar, or left in ground over winter.

SPINACH
King of Denmark. Dark green, thick crumpled leaves. It remains a long time in good condition before going to seed. Pkt. 5c., oz. 9c., 1/4 lb. 20c., lb. 60c.

Long-stemmed. Leaves large, thick, crumpled; does not go to seed quickly. Pkt. 5c., oz. 9c., 1/2 lb. 15c., lb. 40c.

Savoy-leaved, or Bloomdale. Very hardy; an enormous cropper; leaves large, thick, and curled; keeps well. Pkt. 5c., oz. 9c., 1/4 lb. 15c., lb. 40c.

For early Turnips sow as soon, in spring as the ground may be sown broadcast and raked in with a garden rake. ZEPHIR. Makes excellent poultry and parrot feed. It is not the feeding grade. Pkt. 5c., oz. 9c., 1/4 lb. 15c., lb. 40c.

MAMMOTH SANDWICH ISLAND SALSIFY

The Glad Gardener wants you to plant Turnips.

Lots of Folks do This Way.

"For several years I used your seeds with excellent results, but for the last two or three years I have patronized our local seedsman with poor satisfaction. This year I do not want to run any chances with poor seed, so come back to Ford's where the seed is always good."—F. D. Gaffney, Pa.

Tennoji. This Japanese variety attains the very-largest size. If you want to grow a big one, try this. Pkt. 10c., oz. 20c., 1/4 lb. 67c., lb. $1.55.

Golden Ball, or Orange Jelly. Yellow flesh, sweet-and well flavored; a rapid grower; good keeper; excellent and solid. Pkt. 5c., oz. 10c., 1/4 lb. 20c., lb. 60c.

COW-HORN. Long; white; rapid grower. Pkt. 5c., oz. 10c., 1/4 lb. 20c., lb. 50c.

Extra-early Red-Top Milan. The earliest good Turnip; medium; flat; white, bright red or purple top; excellent; keeps well. Pkt. 5c., oz. 15c., 1/4 lb. 35c., lb. 90c.

SPECIAL OFFER—1 packet each of 10 varieties of Turnips and Rutabagas, 35c. 1 ounce each of 10 varieties for 85c.

TURNIPS

For early Turnips sow as soon in spring as the ground can be worked. For main crop sow from July 15 to last of August in drills 18 inches apart, 1 1/2 inch deep. They may be sown broadcast and raked in with a garden rake. RED-TOP GLOBE. Splendid for stock or table use;—a heavier yielder than flat varieties. Pkt. 5c., oz. 10c. 1/4 lb. 20c., lb. 60c.

EARLY PURPLE-TOP STRAP-LEAF. The best flat turnip, quickly attains a large size; produces immense crops of good quality. Pkt. 5c., oz. 10c., 1/4 lb. 20c., lb. 60c.

WHITE EGG. Valuable for fall and winter use; pure white; large; egg shape; cooks and keeps well. Pkt. 5c., oz. 10c., 1/4 lb. 20c., lb. 60c.

POMERANIAN WHITE GLOBE STRAP-LEAF. Snow-white skin and flesh. A good keeper; fine for table. Pkt. 5c., oz. 10c., 1/4 lb. 20c., lb. 60c.

SNOWBALL. An excellent pure white variety; highly recommended for early planting as it matures quickly. Pkt. 5c., oz. 10c., 1/4 lb. 20c., lb. 60c.

EXTRA-EARLY WHITE MILAN. The earliest white Turnip; quality excellent; skin and flesh pure white; fine for early market. Pkt. 5c., oz. 15c., 1/4 lb 32c., lb. 90c.

RUTABAGA or SWEDES

Rutabagas should be sown in June or first of July—same as turnips, and thinned out to 6 or 8 inches apart in the row. They may be transplanted with good success.

IMPROVED AMERICAN PURPLE-TOP. Large; smooth and solid, with small top and neck; flesh yellow; finely flavored; an immense yielder. Pkt. 5c., oz. 10c., 1/4 lb. 20c., lb. 50c.

Burbpee's Breadstone. White; medium size; smooth; a thick grower; fine-grained, sweet and tender. Very large cropper. Pkt. 5., oz. 10c., 1/4 lb. 25c., lb. 75c.

MONARCH, or TANKARD. The largest yellow-fleshed variety; solid, fine-grained and well-flavored flesh; good for stock-feeding. Pkt. 5c., oz. 10c., 1/4 lb. 20c., lb. 60c.

WHITE RUSSIAN, or WHITE SWEDE. One of the best table varieties; white flesh, well flavored, crisp and fine-grained. Pkt. 5c., oz. 15c., 1/4 lb. 20c., lb. 60c.

KEEP THE BUGS OFF YOUR SQUASHES WITH HAMMOND'S SLUG SHOT. 5 lbs. by mail, 75c. By express or freight, 50c.

"I have dealt with you people so long I know you are honest."—Mrs. A. T. Baker, Pa.

"Chicks arrived this morning O. K., much pleased."—Mrs. Emma E. Perry, N. H.

"We have used your seeds for several years and find them to be good."—Mrs. A. V. Wagoner, Ind.

Red Top Globe—The Greatest of all Turnips.
FORD'S SELECT TOMATO SEED

Sow seed in hotbed in March or April, in rows 3 inches apart, covering the seed 1/4-inch deep. Water with quite warm water. When the plants are 2 inches high, transplant into flats 2 to 4 inches apart. Set in open ground when all danger of frost is over, in rows 4 to 3 feet apart and 3 feet apart in the row. Sprinkle a handful of ground bone in each hole before setting the plant. Tomatoes may be tied up to stakes with soft twine, and for the home-garden it is a good plan as the plants may be set closer together than if allowed to run at random.

Tomato seed is one of our leading specialties. Each year we make careful trials of the new varieties, as compared with the well-known standard varieties, and these tests enable us to decide which are worthy and which are not. The following list combines the very best of the old and new. Our seed is from carefully grown and well-developed specimens.

Prices on this page include postage. Pages 22 and 23 for wholesale prices.

BEST 10 TOMATOES

One Pkt. each of above for 90c.

THE NEW MARVELOSA

Marvelosa. We consider this the finest of all second early or main crop, pink tomatoes, we have ever grown. Its disease resistant qualities make a long fruiting season. It is perfectly smooth solid; ripens up nicely and nicely round the stem and does not crack badly. In the height of the season it sold at 75c per half bu., basket while others were selling at 30c. to 35c. It is of finest quality for home use canning or market. Of a beautiful pink color. No one should fail to try this grand variety.

Pkt. 10c., 1/2 oz. 35c., oz. 60c., 1/4 lb. $2.50.

Red Rock. A very fine late variety. Strong growing and productive. Fruits smooth, solid, dark glossy red, fine texture and flavor. A great canning variety, as it contains a large amount of pectin. A No. 1 variety. Pkt. 6c., 1/2 oz. 15c., oz. 25c., 1/4 lb. 75c.

Marvana. Early, red, resembles Earliana. Will have to give it another years trial to determine its real value. Pkt. 10c., 1/2 oz. 35c., oz. 60c., 1/4 lb. $2.00.

Ponderosa. Very large; purple; solid; fine quality, with few seeds. Pkt. 6c., 1/2 oz. 25c., oz. 45c.

Dwarf Giant. Fruits large; solid; purplish, good, vine dwarf. Pkt. 5c., 1/2 oz. 20c., oz. 35c., 1/4 lb. $1.00.

Livingston's Coeless. Late; practically without a core; splendid for main crop; fruit deep red; vines vigorous and productive. Pkt. 5c., 1/2 oz. 20c., oz. 35c., 1/4 lb. $1.25.

Lemon Blush. The best yellow that we know; grows quite large; delightfully fruity flavor. Some prefer them to others when sliced, with cream and sugar. Pkt. 7c., 1/2 oz. 18c., oz. 30c., 1/4 lb. 90c.

John Baer. Red Pkt. 6c., 1/2 oz. 18c., oz. 30c., 1/4 lb. 90c.

Matchless. Red. Pkt. 6c., 1/2 oz. 15c., oz. 25c., 1/4 lb. 85c.

Stone. One of the leaders for main crop; large, solid, heavy, firm fruit; bright scarlet; smooth; ripens evenly to stem, without crack or rot. Keeps and ships well. Pkt. 7c., 1/2 oz. 18c., oz. 30c., 1/4 lb. 90c.

EARLIEST PINK

We have grown this variety for several seasons and our trials have convinced us that it is a better variety than Earliana. It ripens up fully as early and of better quality and flavor. The fruits are clear pink, borne in clusters, smooth and solid, with very few seeds. Often the fruits are 3 inches or more in diameter. Pkt. 7c., 1/2 oz. 18c., oz. 30c., 1/4 lb. 90c.

MAKE SOME MONEY

FORD'S OLD VIRGINIA ENSILAGE CORN

The Dairymen's Most Profitable Crop.

Old Virginia produces more tons per acre than any other; unexcelled for dairy feeding. Largest growers of silage declare Old Virginia superior to any other ensilage variety—much sweeter, better ears, keeps better in the silo, producing more milk. Even in the shortest season matures sufficiently for ensilage. It keeps better than any other corn we have tried in our own silo. This is truly a wonderful Ensilage Corn. We advise every grower to plant it. Our seed is exceptionally choice and of strong germination. We sell several thousand bushels each year. For the very high quality of corn we sell the price quoted below is as low as we feel justified in quoting at time of making up this list. You have the privilege of returning the corn to us if not satisfied when you receive it.

Prices quoted are subject to market fluctuations and change without notice. We will give what we can for money sent us in case of change in price.

BIGGEST YIELDER; MAKES THE MOST AND BEST ENSiLAGE

"This is Old Virginia Ensilage Corn. 13 feet 4 inches high (off year), you have been 14 feet, 2 inches high. We used to plant 5 acres to fill a silo 10x28 feet; now 2 acres of Old Virginia fills it up chockfull and some to spare."—Harlon Shelly, New York.

"I have used Old Virginia Corn for two seasons. Last year I filled a 10x36 silo from 1 acres. This corn grew to a height of 15 feet. A good many of my neighbors are sending to you for Old Virginia on account of this wonderful field of Corn."—R. E. Fritzler, Ohio.

"Last year I planted 8 acres in Old Virginia Seed Corn and raised enough Corn to fill a silo 10x30 and one 10x24 on 6 acres. Many stalks were 17 feet long. Believe it was the biggest Corn grown in this country last year. It pays to buy good seed."—W. L. Stearns, Ohio.

"We tried your seeds a year ago, and they were certainly fine. The Old Virginia Ensilage Corn grows stalks 16½ feet tall. Four acres, checked, three stalks in a hill, filled an 80 ton silo, and made excellent feed. It was the biggest piece of Corn I ever raised."—Earl A. Valentine, Mich.

"I have tried Old Virginia before, and can say that it produces large crops for the silo."—Deleus Anderson, Minn.

FIELD CORN

We aim to make our Seed Corn the best in quality, purity, and vitality of any on the market. The grain is carefully selected, screened, and tested. Samples of any variety for 5 cents to cover cost of mailing.

Ford's Sure Crop. Stalks grow 6 to 9 feet tall, ears 7 to 10 inches long. Kernels long, yellow with redish cast.

Old Virginia Stands the Test Year After Year.
DWARF ESSEX RAPE

A great crop for feeding sheep and hogs. It grows 3 feet high and covers the ground so thickly that few weeds can grow. An acre will give two months' pasture to 36 sheep, and they will make rapid gain in flesh. Sow the seed from June to September, using 6 pounds broad-cast to the acre, or 3 pounds to the acre in drills 2'/2 feet apart. Pre-paid: Pkt 10c, lb. 25c, 3 lbs. 60c. Not pre-paid: lb. 20c., 3 lbs. 50c. 10 lbs. $1.25, 50 lbs. $4.25, 100 lbs. $8.00.

CANADA FIELD PEAS

White. Good grower; very hardy; valuable for green fertilizer, hay or for pasturing hogs. Sow 1 bushel of Peas and 1 bushel of oats to the acre early in the spring, and they may be cut for hay in time to grow a crop of soy beans or cowpeas. Pre-paid: lb. 25c., 6 lbs. $1.00. Not pre-paid: lb. 20c., 15 lbs. $1.15, 60 lbs. $3.75.

COW PEAS

Whip-poor-will. The best of all varieties. Improves the soil. Makes excellent hay. Pre-paid lb. 25c., 6 lbs. $1.00. Not pre-paid: lb. 20c., 15 lbs. $1.10, 60 lbs. $3.60. Ask for prices on what you want. We can get them for you if not in stock and will be glad to accommodate you.

Hairy or Winter Vetch

This is a wonderful cover-crop, one of the best for plowing under. It succeeds everywhere, and produces good crops on poor, sandy soils. It makes a great root-growth, and the roots gather nitrogen in abundance. It remains green all winter and is splendid for pasture. The seed may be sown broadcast from March to November, using 20 pounds with a bushel of oats or rye, to the acre. It may also be sown in corn fields and other crops at the last cultivation and makes a great growth to plow under the following spring. Price pre-paid: Pkt. 5c, lb. 35c., 3 lbs. $1.00. Not pre-paid: lb. 20c., 15 lbs. $1.15, 60 lbs. $3.75. Ask for quotations on large lots.

SOJA, or SOY BEANS

A valuable legume, growing in favor for both ensilage and forage. It thrives on land that is too light for clover and bears wonderfully on good soil. Sow 1 to '/2 bushel to the acre, in drills 2'/2 to 3 feet apart. It is preferable to the cowpea for the North, as it matures more rapidly. Like clover, the roots gather nitrogen, enriching the soil. Soy Bean Hay is equal to Alfalfa in feeding value.

Manchu. The most popular variety for hay or silage. Pre-paid: lb. 35c., 3 lbs. 50c. Not pre-paid: lb. 20c., Pkt. 1.00. bu. $3.25 2 bu. $6.00. Ebony and Large Yellow. Price pre-paid lb. 20c., 3 lbs. 50c., not prepaid pk. $1.10, bu. $3.50, 2 bu. $6.50. Other Varieties. We can supply all leading varieties. Ask for prices on what you want. We can get them for you if not in stock and will be glad to accommodate you.

PULVERIZED SHEEP MANURE

Applied to lawns will freshen them up and give them a rich, green color. Buy a bag and try it. Good for garden also. Price by freight: 25 lbs. 95c., 50 lbs. $1.40, 100 lbs. $2.75, 500 lbs. $12.00. If to go by express add 10c per bag as we have to double sack it. You will be pleased with the results obtained by the use of this fertilizer either on lawn or gardens.

WHEAT

Marquis Spring Wheat. The best of all varieties for spring sowing. Pre-paid: lb. 25c., 3 lbs. 60c. Not pre-paid: lb. 20c., 15 lbs. 95c., 60 lbs. $3.00. Prices on large quantities of this or other varieties on application.

"Received Dahlia bulbs in good shape and thank you very much for your good square dealing." Geo. E. Butler, Ohio.
**FORD'S SEED OATS**

Ask for Quotations on Large Lots.

Swedish Select. This is often spoken of as "The Best American Oat." It is big yielder, vigorous grower, medium early. Does best on clay or loam soils. The oats are short, plump white and very heavy. We have a fine stock of this grand variety. Price pre-paid: lb. 20c., 3 lbs. 50c. Not pre-paid: Pkt. 50c., bu. $1.35, 5 bu. $6.00, 10 bu. or over at $1.10 per 100, bags included.

White Kherson. Very early, short stiff straw, extra fine for rich soil, as it does not lodge. Price same as Swedish Select.

Gold Mine. Same price as Swedish Select.

Hulless. This variety threshes out like wheat free from hulls and makes an excellent feed for growing chickens. A good yielder. Pre-paid lb. 25c., 3 lbs. 60c. Not pre-paid: lb. 20c., 10 lbs. $1.25, bu. (32 lbs.) $2.00, 4 bu. $7.50.

**SORGHUM**

Early Amber. Makes good syrup and excellent feed for crows. Pre-paid lb. 10c., lb. 25c., 3 lbs. 50c. Not pre-paid: lb. 25c., 10 lbs. $1.00, 50 lbs. or over at 6c., per lb.

Feterita. Ripens early and yields as high as 80 bushels per acre. Plant in rows, using 3 to 5 pounds of seed to the acre. Same price as Early Amber Sorghum.

**FLAX**

Flax. Used to sow with Oats to add protein and increase their feeding value. Pre-paid: Pkt. 10c., lb. 25c., 3 lbs. 50c. Not pre-paid: lb. 20c., 10 lbs. $1.25, 50 lbs. $4.00.

**BROADCAST SEEDERS**

No. 4. Sack holds one-half bushel. Steel frame, convenient handhold and body shield, well braced. Price pre-paid $1.75, not pre-paid $1.50.

**Wil-Bo Seeders**

The Wil-Bo Seeder is the fastest sowing seeder made, saving both time and money. It is the most economical because the patented regulator sows accurately the number of pounds of seed desired per acre. It prevents under sowing and a scanty crop as well as over sowing and the excessive waste of seed.

The regulating slide and graduated disc are on the inside of bag and easily accessible. By giving the tapered hopper a light blow with the palm of the hand or sliding the tube through the sack, the regulator is exposed and can be set to any number of pounds per acre. Pre-paid, $1.15; Not pre-paid, $1.00.

**NITROGEN FACTORIES FOR YOUR OWN FARM.**

Inoculate your alfalfa, sweet clover, soy beans, red clover, alsike, mammoth clovers, vetch, peas, beans and all other legumes (pod bearing plants). McQueen’s Inoculator insures a catch, hastens maturity, increases the crop, enriches the soil and means success with legumes. You can start a nitrogen factory on your farm by inoculating your legume seed with McQueen’s Inoculator. An inoculated legume takes nitrogen from the air and stores it in the soil for future crops.

Simple directions with each package of McQueen’s Inoculator. The Farmers Friend.

**McQUEEN’S INOCULATOR.**

**GUARANTEE**

Use as many packages of McQueen’s Inoculator as you wish, according to directions. If nodules do not appear in a satisfactory manner, we will refund the entire purchase price. Guaranteed by the McQueen Bacteria Company.

Soy Beans inoculated with McQueen’s Inoculator and planted with corn increases the corn yield.

Why buy expensive Nitrates when they may be produced right on your own farm at a trifling cost.

BUSHEL VALUE FOR ACRE PRICE. WHY PAY MORE?

One can of McQueen’s Inoculator for clover or alfalfa will thoroughly inoculate one bushel of seed. One bushel of inoculated clover seed will sow 5 acres. Five-acre size bacteria would cost you $5.00. One bushel size of McQueen’s Inoculator costs only $1.00. Saves $4.00.

Be sure to state what seed you want to inoculate when ordering as different seeds take different bacteria.

**That GUARANTEE Protects You**

"Nature’s Easy Way"

McQueen’s Inoculator is an unequalled record of results. McQueen’s Inoculator is the hardest and most virile nitrogen fixing bacterial known.

That is because it is bred under nature’s conditions, not in a laboratory or under hot house conditions.

It makes poor soil good and good soil rich.

McQueen’s Inoculator will enable you to grow better crops than you've ever grown before in field and garden.

McQueen’s Inoculator will cost you less per acre because it is sold on the bushel basis instead of by acre sizes.

Treatment of the seed with McQueen’s Inoculator is the cheapest and surest way of enabling them to get the nitrogen they so vitally need, in sufficient quantity to insure a maximum yield.

McQueen’s Inoculator. The Farmers Friend.
We sell all Grass and Clover Seeds on a small margin of profit and handle none but the highest grades. The analysis of these will be found to be high in all cases. As prices fluctuate we are not bound to prices here quoted. All orders are taken with the understanding that we are to give the quantity of seed the money sent us will buy on the day the order is received, regardless of any quotations. Orders received only on these conditions.

**FORD'S FANCY LAWN GRASS MIXTURE**

The Finest That Can Be Made

Produces a thick, velvety permanent green turf. It is composed of grasses and clover of the highest quality and of the best varieties. No one grass will make a perfect lawn. Our sales of this seed have been enormous and our customers have been universally satisfied with it. The best varieties as well as the best grades of seed are used in this mixture to make it the finest possible for lawns. The mixture is designed to make a permanent turf that will hold the lawn in shape and prevent washing. A cheaper mixture can be made but inferior seeds must be used to make it. Ours contains highest grade seed and will give good results everywhere. The best time to sow lawn grass seed is from March 15 to May 15 and from September 1 to October 15. Use 1 pound to every 400 square feet. Pre-paid: Pkt. 10c., lb. 45c., 4 lbs. $1.68. Not pre-paid: lb. 40c., 10 lbs. $3.50, 50 lbs. $16.50, 100 lbs. $32.00.

Shady Nook Lawn Grass. For shady places. Price same as other Lawn Grass.
DIRECTIONS FOR GROWING

More flower seeds are probably destroyed by planting too deeply than by any other one cause. Such small seeds as Petunia, should be merely covered lightly, whether in open ground or in boxes. In preparing the ground, provide very fine soil, pressed down lightly and evenly and moistened thoroughly with warm water. When the water has soaked away, sow the seed; cover evenly with fine, dry soil not over 1-16 inch for the finest seeds and 1-8 inch for seed the size of Pansy seed.

If the bed is small enough lay glass flat on the surface: this will keep the ground from baking and will prevent washing in heavy rains. When growth has begun, lift the glass slightly by propping it with something and when it is finally removed the young plants should be shaded with thin cloth or paper if the sun is very hot. Keep the bed well weeded, and the soil frequently stirred to prevent the formation of crust.

For convenience in ordering we give each variety a number, which should be used in place of the name. This will help us in filling orders and will also prevent mistakes. Abbreviations are as follows: A., annuals, or plants which live only one year; B, biennials, or plants which live two years; H, hardy; H. H., half-hardy; P., perennial or hardy plants which live tor a number of years. M., indicates several varieties mixed in the packet. All seeds in the following list will be sent postage pre-paid. Order by number.

"Bright Spot" Collection Flower Seeds 16 For 78 cents. Page 34.
STEPS HHA

Asters are easily grown and their various forms and colors are always offering something new; they are especially good for cutting. For a continuation of bloom make first sowing of seed in March, transplanting to open ground when danger of frost is passed. Later plantings may be made at intervals of 2 or 3 weeks up to June 1st. The later plantings usually produce the finest flowers.

Giant Comet Asters
Among the most beautiful of all; 10 to 20 inches high; flowers often 4 to 6 inches across, with petals magnificently curled, like a chrysanthemum; sometimes bears 20 to 30 to 40 flowers on a long stem. The stems are stiff and the flowers will last many days, which makes them fine for cutting. Colors as follows:

- 22 Carmine
- 23 Rose-Pink
- 24 Shell-Pink
- 25 Lavender

Prices of above, pkt. 8c., ½ oz. 25c., 1 oz. each of Nos. 22 to 25 inclusive, for 45c., post-paid.

Crego Asters
Flowers larger than Giant Comet; long, twisted petals free bloomer; extra fine for cutting; plants 2 to 2½ feet.

- Popular colors as follows:
  - 31 White
  - 32 Pink
  - 33 Lavender
  - 34 Mixed
  - 35 Purple
  - 36 Crimson

37 Heart of France Aster
The best pure red Aster ever introduced. Opening red as the petals unfold, it deepens with age and retains its remarkable beauty to the very end. The petals appear strikingly changeable, showing now a glow and sheen as the purest ruby, it deepens with age and retains its brilliancy and luster for a longer period than almost any other color. It has supplanted all other red Asters because of its marvelous beauty. Pkt. 15c., 4 pkts. 50c.

38 New Fancy Yellow
One of the largest Aster growers in the U. S. says of this new variety, “This is by far the best yellow we have yet grown; it is fairly large and fully double. We have put this variety in place of Peerless Yellow and believe our friends will like it. It is the only Yellow Aster that we offer.” Pkt. 20c., 3 pkts. 50c.

39 Vick's Silvery Rose Aster
Here is another robust, long-stemmed, large flowering new variety. Every petal is a combination of deep lilac rose, almost cerise, very delicately threaded with white. The threads are so tiny as to give the petals a silvery sheen. Even the slightest change in light will shade the petals from a rich glowing, rosy cerise to a silvery rose. The petals appear unusually long and the flowers very large. This variety stands out above every other in the field in which it grows for size and vigor. Pkt. 15c., 4 pkts. 50c.

Vick's Branching Aster
Plants about 2 feet high and branched. The flowers are from 4 to 6 inches across, globe-shaped, very full, and without yellow center. The flowers are borne on stems from 15 to 20 inches in length. We consider these superior to other late sorts. Can furnish them in the following colors:

- 44 Crimson
- 45 Carmine
- 46 Lavender
- 47 Pink

Prices of above, pkt. 8c., ½ oz. 25c. - ½ oz. 60c., oz. $1.00.

Small Fruit Plants

**STRAWBERRIES**

These plants are grown on new land and are strong and vigorous and will give the best possible results.

We guarantee the safe replacement of these plants. Should they fail to grow we will replace them at one-half price if ordered before the spring shipping season of the following year is over. We do not handle Strawberry plants in the fall.

Varieties marked P. are Pistillate and require some Bisexual (B). variety planted near them in order to produce fruit.

Premier. (B) The earliest of all. Too much praise cannot be given this most wonderful early berry. While extremely early it seems to be frost resistant. It has given perfect satisfaction where ever grown, and produces abundant crops. The berries are large, bright red color, sweet of fine quality, and very uniform in shape and size. It is an all around strawberry, good for market, table use or canning. A money maker for the commercial grower.

Gibson. (B) A leading market variety either for home or distant shipping, as it is firm and holds up well. An abundant bearer, the vines which are strong are loaded with fruit of large size, which is dark glossy red, extending clear through to the heart. Especially valuable for canning. It has been thoroughly tried and proven a success in all kinds of soil. It ripens medium late.

Senator Dunlap. (B) Medium early. Dark red, good polenizer. About the same as Dr. Burrill. Price same as Dr. Burrill.

Eaton. (B) Very firm, making it a good shipper. A heavy yielder, large size; dark red, clear through to the heart, perfect shape, fine quality. Sells at highest price. Ripens medium late.

Sample. (P) Large; firm; commences to ripen in mid-season, and continues till late; healthy; fruit good quality. One acre produced 30,000 quarts 30 months from planting. No berry has stood the test under all conditions better than the Sample.

"I have bought your seeds for a number of years and they are fine."—Mrs. A. G. Timms, Ohio.
"We have dealt with you people for several years and always got honest treatment."—Helen N. Grodhaus, Ohio.
Strawberries—Continued

Bissell. (B) This is one of the most vigorous growing varieties we have ever seen. The fruit is of large size, very firm, bright red color, and commands top notch prices in market. Ripens mid-season to late.

Pearl. (B) Latest of the June bearing varieties. Large size, dark red, firm. Coming as it does so late it sells for high price.

LARGE QUANTITIES

If large quantities of Plants or Shrubs are wanted we will be pleased to make special prices on receipt of your list.

GRAPE

Perfection (B). This is an improved Senator Dunlap and what may be said of the latter will apply also to the Dr. Burrill. It produces lots of plants and yields large crops. It ripens medium-early. Fruit is of good size, firm, dark, glossy red, of even shape and high quality. One of the real good older varieties.

Aroma. (B) The big fancy late strawberry. If you begin the season with Perfection and close it with Aroma you have covered a long season. The Aroma produces uniformly large berries, which are round in shape, deep, glossy red in color, having a tough skin and firm flesh, which make it an excellent shipper. Its quality recommends it as an all around berry.

THE "BACON" SEEDERS
The large heavy drive wheel of the "Bacon" is on the rear, which results in three important points of superiority over other seeders which have the front wheel drive:

(1) In working any hand seed drill there is a natural tendency to throw considerable weight downward on the handles, which results in raising the front wheel somewhat off the ground which results in spaces of light sowing.

(2) THE "BACON" LARGE HEAVY DRIVE WHEEL BEHIND will not work into the soil but on it, thus running much easier.

(3) Because of the fact that on the "BACON" THE LARGE HEAVY DRIVE WHEEL IS BEHIND, the entire driving unit can be removed by merely loosening two bolts, which leave the cultivator ready for the particular attachments desired without any modification of the front wheel or cultivator frame.

The feed of the "Bacon" drill is the most perfect to be found on any drill made. It is adjustable for sowing all kinds of seed from turnip to peas. The construction of the feeding device insures an even flow of seed which is a most important point with all gardeners.

THE "BACON" CULTIVATOR
Through the use of ribbed malleable frame and the proper distribution of metal, produce a line of hand cultivator which combines rigidity and strength with extreme lightness of working parts, enabling the operator to do unusually close work without fatigue. Every gardener that has used one vows that he would not be without his "Bacon" cultivator. Our attachments include everything which is necessary for the proper cultivating of all the regular crops.

FORD PEAR greatly reduced and cross section showing absence of core and seeds

This is one of our introductions which we want everyone who reads this catalog to plant and in order to have it thoroughly disseminated we are offering: One Root Craft Free with Every Order of $5.00 or Over. While the few thousand we have set aside for this purpose last and if asked for when order is given.

We are pleased to offer this wonderful Pear of our own introduction, and are confident it will become a world-wide favorite as soon as its splendid qualities are known. The Ford is practically free from seeds, about nine-tenths of the fruits containing none at all, and we have never seen more than two seeds in any single specimen.

There is also no core to speak of. Illustration of this Pear was made direct from a photograph and shows a section of a specimen cut through the center. Notice that it shows no core or seeds at all. The absence of core and seeds makes the Ford a splendid Pear to can, as there is practically no waste. The quality of the Ford Pear is rich, sweet and juicy, and the color is a rich yellow when fully ripe. It is similar in appearance to the Bartlett, but has a distinct flavor and is three weeks later.

Being very desirous to have this pear grown by all our customers we have made up a few thousand root grafts which can be sent easily by mail and if set so that only 2 inches of the graft is above ground they will grow into nice trees very quickly. Price, Each 25c., 3 for 50c., 7 for $1.00, 15 for $2.00.
